PROTECTION

As our Navy is a protection from the invasion of foreign foes, so is pure Lager Beer a protection from the invasion of intemperance of our citizens. The greatest protection any nation can possess is temperance, which is the true safeguard of the happiness and welfare of the people. Pure Lager Beer, when made from hops and barley, has been accepted by many of the world's greatest scholars as a benefit to mankind and one of the most influential agents in behalf of true temperance.
