An Opinion

It is in my opinion that all classes of Merchandise will gradually decline in price, not as low as the former are war prices, but a substantial drop from the present.

Our Policy

Our policy has been, and is now, to mark our goods accordingly, this means that we sell goods cheaper; it means that regardless of what goods cost we are going to mark them a hour price. In other words, we are going to return our judgment, which is that goods can be replaced at a lower price from what they cost us. And, consequently, THAT THE PUBLIC OUGHT TO GET THE BOUNTY OF THE DOWNWARD MOVEMENT, AS WELL AS THEY HAD TO PAY FOR THE ADVANCES.

Do You Think?

Do you think that you ought to come in and see our stock, get prices, compare values, consider quality and is justice to you and yours, by accordingly.

And So We Say:

And so we say that if you are in position to pay Cash for Your Needs, if you will take a little more time, if you will not jump at conclusions if you will consider and compare, we assert that you will say with us, THAT WE SELL CHEAPER THAN THE CREDIT STORES.

JUNIOR RED CROSS

WORKING AT HOME

Production of Red American Citizenship the First Act, says Dr. Farrand.

On the holiday of every member of the American home school system, the American Red Cross organized a movement to produce American citizenship at home. The idea was to encourage every American to make a handmade, self-made, handmade gift to be exchanged throughout the world.

At the closing of the three session was the announcement that the American Red Cross had received gifts from over 100,000 homes in the United States, including the American Red Cross in Europe and Africa.

The ideal of peace is something we are working toward, said Dr. Farrand. The American Red Cross has done much toward this aim through its work, but if the public will continue to work, we will all have the opportunity to live and work in a world of peace.
