Big Fleet Enters This Busy Port.

Transport Lawton and Seven Sailing Vessels Arrive.

EVENTS brought in this port last week that have been the talk of the town and that will be the subject of a great many dinner conversations today were the arrival here of the big fleet of vessels from San Francisco. There has been a considerable amount activity in this port during the past few days; in fact, it may be said that the harbor has never been busier during the past winter. The activity was caused by the arrival of the great fleet of vessels from San Francisco, and the fact that they were all scheduled to leave the harbor for the Pacific Coast and the Orient at the same time. The fleet consisted of seven vessels, and each one of them was loaded with a large quantity of cargo.

Rear Admiral Tinsley on Survey.

The Rear Admiral Tinsley was also on survey, and it is said that he was very pleased with the work that had been done in the harbor during the past few weeks. He was also pleased with the progress that had been made in the harbor and the work that had been done to improve it. The Rear Admiral Tinsley was in the harbor for several days, and during that time he made a thorough inspection of the harbor and the work that had been done to improve it.

New Dock for San Francisco.

The new dock for San Francisco was also completed during the past week, and it is said that it will be ready for use in the near future. The new dock is located on the south side of the harbor, and it is said that it will be able to handle a large quantity of cargo. The new dock is said to be one of the most modern docks in the United States, and it is said that it will be able to handle a large quantity of cargo.

Steam Plow, Ropes.

Steam Plovers was also on survey, and it is said that he was very pleased with the work that had been done in the harbor during the past few weeks. He was also pleased with the progress that had been made in the harbor and the work that had been done to improve it.
