MORMON AMBITIONS—BURGUL'S CLEARING HOUSE.

Bitten by an Alligator—Another War Scare.

The Bacillxs of Youth—Mont Pellec.

[Flame Coast Files]

SALT LAKE, Oct. 3.—President Joseph Smith of the Mormon church has made an address to the Mormons of Washington County that caused a sensation amongst the Gentiles of the state. The address was made at the regular conference of the St. George Stake. President Smith, Anthony L. Lund, one of his counselors, Augustus, Mr. S. S. Ford, and others, accompanied President Smith, to attend the conference. In his address, President Smith briefly stated the position of the Mormon church, and in that connection, he had also made a number of alterations in the church's constitution. The address appeared to be a rebuke to those who are in the future business, and were ready to do so. The address was made at the commencement of the conference on Saturday afternoon.

NOTES.

Mr. Smith had said in his address that the present situation was not quite as bad as it seemed. The address was made at the commencement of the conference on October 1st.
