OUR NAVY AVIATORS HAVE DONE MUCH DESPITE HANICAPS

Initiative in Marine Flying Early Taken by Small Group of Pioneers and Maintained Despite Odds

The United States navy should take steps to find the career of aviation, and that it will become the career of the future. The success of the American aviation industry is the result of the efforts of a few pioneer aviators who, with courage and skill, have overcome the obstacles in the way of their success. The United States navy has been quick to recognize the importance of aviation and has done much to promote the progress of the young industry.

The United States navy has done much to promote the progress of aviation. The navy has been quick to recognize the importance of aviation and has done much to promote the progress of the young industry.
