Tuesday & Wednesday

Dr. Chas. Upson Clark
Scholar——Lecturer——Teacher
Formerly of Yale University and American Academy at Rome

Two Programs

Normal : Auditorium

7:30 p. m. Feby. 10th-11th. Admission 35c

Spring Is Not Long Off

Indications are that a large number of buildings will be
created in Richmond and Madison county and we advise
prospective builders to get our prices on

Sand, Lime, Cement, and Other Building Materials.

Come around and let us give you our quotations. We
believe we can save you money.

L. R. Blanton

WASTE OF WATER

There is a waste of over 200,000
million of water every 24 hours,
by customers letting faucets run
nearly at all. This waste of water
not only entails great and useless
expense, but it may make it
impossible to furnish adequate
water pressure at one time. We
urge that all water consumers
shut off all taps and turn valves
to confirm their use of water within
reasonable bounds.

OLD MADE NEW

We are making gold shoes look just like
new ones. We use nothing but the
very best grade of leather that can be
secured and the Famous Wing
Foot Rubber Heels.
Bring us a pair and let us show you
what we can do.
