BILL THAT PROVIDES FOR SNOW REMOVAL PASSED BY SENATE

Dillingham's District Measure Goes Through Without Any Opposition

PROVISION OF 10,000 IS CARRIED

Carefully Prepared to Avoid Fuss of Protestors—Aoons Not Included.

The Dillingham bill, providing for the removal of snow and ice from the various thoroughfares of the District of Columbia, was passed by the Senate without opposition this afternoon.

Senator Hantos of Idaho asked a number of questions about the bill, but did not oppose it.

Previous indication on this subject has invariably been knocked out by the Senate. The present bill has been carefully prepared by Senator Dillingham in an effort to avoid the objections which the Senate has raised in the past.

It carries an appropriation of $10,000 to be paid for removing it this year. Half of this sum of the district revenue.

Provision of Bill.

The bill provides that each $10,000 provided by the bill shall be paid to the city's commissioner of public works for the purpose of removing snow and ice from the public thoroughfares and streets.

The bill kills a proposal to make it nonresident, as the district commissioners are nonresident and have no power to act in such a matter.

Pension Bureau Fire

Does Little Damage

Fire, caused by the ignition of papers on the second floor of the Pension building at 12th and Pennsylvania avenue, burned out the office of the Department of Pensioners of Germany on the first floor.

The fire was reported at 8:30 this morning.

The Pension Bureau has been reported as being of the Pension Bureau for the War Department.

NEW ELECTRIC ARC LIGHTS APPROVED BY ALLEN IN 1901

District Engineer reported 700-candlepower lamps not required. This movement, commonly received as a recommendation of Walter C. Allen, District Electrical Engineer, to the District Commissioners, on October 21, 1901, in the basis of an investigation, shows that the electric lamps have been found to be the best for the purpose of lighting up the buildings and the lamp service furnished the needs of the city.

DICKINSON URGES CLERKS' PENSIONS WITH HIGHER PAY

Would Be Good Investment for Government As Greater Efficiency Would Be Obtained From Employees.

"I appreciate that the cost of living has increased, and the wages of the Government employees has not increased in proportion. I wish that something might be done. I also favor a retirement system, such as is now in operation in the railroads and the other great corporations.

"I therefore urge that our Government employees be given a pension, and that it be increased to the extent of 10 percent."

May Presage Fight

For Asylum's Fees

The resolution of a committee of the Pension Bureau today to charge the Government for the cost of care of veterans in the pension asylum, a matter long considered by the Department of the Interior, and the bill to the pension bureau for the care of veterans in the asylum.

The bill was introduced by Senator Dillingham, author of the pension bill, and passed by the Senate without opposition.

Finding of Woman's Body

Reveals Murder Mystery

BOSTON, Jan. 18.—A woman's body was discovered this morning in a room on the second floor of a tenement house.

The body was that of a woman who had been a stranger in the city for several years.

The body was that of a woman who had been a stranger in the city for several years.

The woman was a stranger in the city for several years.

In CONGRESS TODAY

JUDSON MAKES DISCLOSURE

"...and I feel that the best type of arc lamp service is required not only for the sake of the employees, but for the benefit of the general public..."

These statements, received as a recommendation of Walter C. Allen, District Electrical Engineer, to the District Commissioners, on October 21, 1901, in the basis of an investigation, show that the electric lamps have been found to be the best for the purpose of lighting up the buildings and the lamp service furnished the needs of the city.
