The Pennsylvania, the heaviest of the United States battle fleet. She carries twelve 14 inch guns and it is a disputed point among naval experts whether or not she is outranged by effective firing by the Queen Elizabeth type, the different in caliber of ordnance being offset by the weight of metal thrown in one of her broadsides.

Map showing the range of the Queen Elizabeth as compared with the defenses of New York harbor. Estimated by her performance at the Dardanelles, she could stand all out of range of the guns of Fort Hancock, Wadsworth and Hamilton and bombard the city as far north as Forty-second street.

FRANCE STRONG IN CULTURE, EVEN IF DEFICIENT IN KULTUR

By ALPHONSE AULARD

Professor of the History of the French Revolution at the University of Paris.

The French Revolution, as we know, is a period of immense significance for the development of modern European society. It was a period of great upheaval, of revolutionary change, of social and political turmoil. It was a period of great intellectual ferment, of new ideas and new thoughts. It was a period of great cultural development, of new art forms, of new literature, of new music. It was a period of great scientific progress, of new discoveries, of new technologies. It was a period of great political change, of new governments, of new constitutions. It was a period of great social change, of new classes, of new social groups. It was a period of great economic change, of new industries, of new commerce.
