The "Merrimac" of New York Harbor.

RUMBS HAS BEEN APPROPRIATED CLEAR THE CONSTRUCTION WHICH WOULD HAVE KEPT SPAIN'S WARRIORS OUT OF THE FAMOUS WATERS OF NEW YORK BAY.

When Admiral Sampson received the news of a new York harbor Amherst he learned that the harbor was blocked by a massive landmass. He must destroy the landmass to prevent the Spanish fleet from entering the harbor. The admiral sailed into the harbor with a large force of ships and began the destruction of the landmass. The admiral later wrote that he had never seen so large a force of ships and that the destruction of the landmass was a great success.

A NEW PHASE OF IT.

With the destruction of the landmass, the admiral was able to enter the harbor. The admiral then proceeded to destroy the Spanish fleet. The admiral later wrote that he had never seen a more powerful fleet than the Spanish fleet. The admiral also wrote that the destruction of the Spanish fleet was a great success.

THE CROSS SHOWS THE POINT OF TAN OR.
