NAVY'S GREAT NEED IS GUN AND AMMUNITION RESERVE

By ROBERT G. KEWERTY

August 1915 was proclaimed a Navy gun by the War Department that would be ready in 1916. The Navy could only proceed with the purchase of this gun because it was decided that the gun was necessary in the construction of the future battleship in the service. The Navy's great need is gun and ammunition reserve.

This gun, the 14-inch gun, is to be built in the United States. The Navy's great need is gun and ammunition reserve.

The breech of a big gun calls for the most accurate work. This gun, the 14-inch gun, is to be built in the United States. The Navy's great need is gun and ammunition reserve.
