

"Freedom must be fought for today, just as our fathers had to fight for freedom when the nation was born."

Harry S. Truman

More information about life on board the Navy's newest nuclear-powered aircraft carrier can be found on our web page at <http://www.navy.mil/homepages/cvn75>

Enjoy a safe visit

While touring *TRUMAN*, make sure to stay safe. The following guidelines will ensure you and your friends enjoy an accident-free visit.

Stay with your escort at all times and follow his instructions. In the event of an emergency, your escort will take you to a safe area. If you happen to get separated from your escort, please stop and ask for assistance.

Watch your step! The stairs are very steep, so always use the handrails or chains. There are many ankle-twisters, "knee-knockers" and other trip hazards on the ship.

Watch your head! The overhead clearance in some areas is not very high, and there are many things protruding from it. Be prepared to duck. If you wear a cap, be careful that the brim does not mask your vision from overhead objects.

Smoking is severely limited on board! Your escort can show you the designated smoking areas.

Do not eat or drink while on board, except in designated areas. Your escort can tell you where the designated dining areas are on board.

Do not sit or lean on life lines, rails or chains. Some may not be able to support your full weight, or the ship's movement could cause you to fall overboard.

Do not run! Only two groups of people can run on the ship; the ship's fire party (the ship's firefighters) and security force. If you hear someone yell loudly behind you, please move aside and get out of the way quickly.

Supervise your children at all times. This is a must for their protection, especially for those under the age of 8.

Medical emergencies. In the event that you need medical attention, ask your escort or the nearest crew member for help.

Off limits. All sponsons, catwalks, the fantail and areas marked restricted, are off limits for your safety. Your escort will guide you on where you are able to go.

If you don't know what it is, don't touch it! If you want to know more about something, please ask. The crew will be more than happy to show you how they do their jobs.

Emergency phone numbers:

Commanding Officer	6000	Executive Officer	5001
