CHUNGKING, CHINA--China charged today that Russia has violated their 1945 treaty by keeping China from taking over Dairen and Port Arthur. The Chinese Government said it feels free at any time to move troops into the Manchuria ports despite Soviet objections.

The charges were contained in a strongly-worded 6-page foreign office statement, which claims Russia is undermining the integrity of China. It blamed Russia for the entrenchment of strongly-armed Chinese Communists in the Dairen-Port Arthur area a direct result, the statement said, of the Soviet refusal in October, 1945, of the Soviet Government to agree to the landing of Chinese troops at Dairen.

WASHINGTON, D.C.--Secretary of State George Marshall indicated today that the \$500,000,000 export-import loan earmarked for the Chinese Government will be allowed to expire on Monday. That means that the Chinese Nationalists, whose spokesmen have been pleading for the money, will have to start new negotiations with the export-import bank. The United States has been holding up the loan pending effective action by China to achieve internal peace and stability.

WASHINGTON, D.C.--Secretary Marshall made public the text of a protest to Rumania over what this country called the drastic privation of civil liberties to which the Rumanian people are being subjected. The note specifically cited the arbitrary arrests without warning or trial of hundreds of non-party and other persons, and their detention in prisons and concentration camps under deplorable conditions.

WASHINGTON, D.C.--Secretary Marshall also said that Japan will be permitted to send a whaling expedition to the Antarctic this summer, despite protests by Britain, Australia, New Zealand, and Norway. Marshall pointed out that such

an expedition would relieve the United States of the charge of supplying some food for Japan, and thus lighten the burden on American taxpayers. He also said it would help to alleviate the world.

LONDON--Ernest Bevin has decided to go ahead with the Marshall Plan for European recovery, even if Russia refuses to take part. The British foreign office said that Bevin will insist, in the Big-Three Conference, that Germany must be fitted fully into the plan, despite the 30-day failure to get Russia's agreement to a unified country.

MOSCOW, RUSSIA--Pravda, the Russian Communist paper, said that some people in the European countries could work out their own aid plan.

LONDON--Britain has announced a huge expansion program in which \$400,000,000 will be spent on industry and agriculture to build a strong empire centering around Africa. The announcement made in the House of Commons revealed that Britain has turned to its colonies, chiefly Africa, as a source of power and wealth to bolster its own sinking economy, and compensate for its own weakening condition.

ROME--President Enrico De Nicola formally tendered his resignation for personal and political reasons, but Parliamentary circles predicted that he would be re-elected when the Assembly reconvenes tomorrow.

The United Nations Commission, which has been investigating the trouble along Greece's northern border, today ordered a sub-Committee to cross the Bulgarian frontier. The order was given despite Russian objections.

LAKE SUCCESS, N.Y.--The United Nations Security Council called on the Big Five Military Staff Committee to give an early estimate of the overall total

 land, sea, and air forces for the United Nations' global police force. The request was proposed by Great Britain and supported by the United States. Russia was still split with the other four big powers on the size of the Armed Forces.

The Navy will undertake a scientific survey of Bikini Atoll this summer to determine the long-range effect of the 2 atom bombs that fell there last year. They will determine the radio-activity of the water, and the land.

LIMA, OHIO--A crack train jumped the tracks yesterday, derailling five of its six cars. Two trainmen were killed. Two other people were walking alongside the tracks, and were killed as the train toppled over on them.

TODAY'S SPORTS

The Brooklyn Dodgers used to think Kirby Higbe was the greatest gut in the world when he pitched for them and they'll keep right on thinking the same, if he goes on hurling the way he did for the Pittsburgh Pirates yesterday in a 6 to 2 Brooklyn victory. It marked the third time that the Dodgers had "teed" off on Higbe to hand him 3 of the 6 losses he has suffered at Pittsburgh.

Rookie Taylor scattered seven hits in chalking up his fifth victory against two losses for the Dodgers.

The New York Giants kept up their home run pace in a 9 to 3 victory over the Cubs at Chicago in which Johnny Mize, Walker Cooper, and Willard Marshall "Looped the loop." Mize's homer was his nineteenth, keeping him far in front in the Major League competition. Cooper and Marshall each got their fourteenth homers.

Dave Koslow breezed to his seventh victory for the Giants. The Cincinnati Reds put on a four run rally in the ninth inning to defeat the Philadelphia Phils, 9 to 8. The Reds batted around in the ninth getting four runs on five hits and two walks.

The Detroit Tigers, behind the pitching of Hal Newhouser, finally ended their ten-game losing streak with a 4 to 2 victory over the Red Sox at Boston, but there joy was short-lived, for Dave Ferriss came back to beat them 4 to 3 in the second game of a twin bill. Newhouser scattered nine hits and struck out eight in winning his seventh game. Ferriss gave only six hits as he won his seventh game.

INQUIRING REPORTER

Question: Are you going into business for yourself? If so, what type of business, and do you plan to use the GI Bill?

Pfc John Wyer, D-5, Wichita, Kansas: I am planning on going into business for myself about a month after I get home. I had in mind a trucking corporation, specializing in hauling grain and produce to and from nearby States. I do plan to use the GI Bill to back my idea, as I have saved enough money to buy my own truck.

Sgt Harry Kokunwitz, D-2, Green Bay, Wisconsin: In the spring of 1948, I figure on having this set to begin business right away. Owning a garage has always been my ambition, so that's what it will be. As far as the GI Bill is concerned, I think I'll need its help. I hope I can get along without it. If you are looking for expert repairs at a reasonable price, come look me up. Right now, I am in the Bulkhead washing, but that doesn't pay very well.

Pfc Ira Wisecup, D-2, Hollywood, California: I plan on going into business as I was before the war, building California hop-ups and just having one good time. I guess I'll use the Bill to finish school, and do a little bit of sport.

T/4 Francis E. Schnell, C-5, Ramona, South Dakota: I think I will go back to farming when I get home, as it is the only occupation I have experience in. I also plan on using the GI Bill to get a start.

Pvt Bruno, D-2, Chicago, Illinois: After two months of loafing, and after joining the 52-20 Club, I am going to reenlist to go back to the Philippines. Doing this, I don't think I'll need the GI Bill.

"THE GI AND HIS RIGHTS"

Ex-service men have fulfilled one responsibility specifically. To them in acknowledgment thereof some special rights are guaranteed under the so-called "GI Bill."

Genuine democracy means equal opportunity for all. One of the chief threats to continuing democracy is constituted by the "pressure groups." Special groups of classes seeking their own particular interests nullify the meaning of democracy.

It can be readily seen that if around twelve million ex-service people seek extra bonuses, additional rights and privileges, they cannot be granted without impairment of our basic institutions both politically and socially. The educational benefits, loan provisions and some others are exceptions to the general principle, for insofar as they aid a person to be a better citizen it is a direct improvement of the nation as a whole.

Those who were incapacitated by the war should receive every benefit practicable in acknowledgment of gratitude. Those, however, returning sound in limb and mind should feel rewarded in a sense of duty done. Such ones should rest content with gratitude now expressed in the compensatory rights granted by the "GI Bill."

The future of democracy in America may be determined by those of us who have served in the services, whether we give it our best, or, through ignorance though unconsciously, at the expense of that way of life, we endeavor as a group to secure all we can of personal gain through "pressure" activity. There is only one choice for the sensible man who really loves America.

THE G.I. BILL "QUESTIONS REGARDING EDUCATION"

Question: "What is meant by 'ordinary school year'? Some schools continue for 11 months and other schools stop at the end of 9 months, and then there is the summer session intervening.

Answer: The Veterans Administration has ruled that "The 'ordinary school year' is defined as a period of two semesters or three quarters—not less than 30 nor more than 36 weeks in total length. Under this definition, an institution may be paid as much as \$500 for each 'ordinary school year' which is completed, regardless of time required for such completion."

"WHAT PRICE GLORY?"

by
Lindsay Thomas

What price glory when in a lonely field,
Lies the remnants of some youthful
dreams;
A name, a number on a plain white
cross,
To me a laughing boy in worn blue jeans.

The aching sweetness of him nursing at
my breast,
The joy of tiny fingers which curled
about my own;
With tender love I held him cradled in
my arms,
Here against my heart he knew his only
home.

I watched him growing straight and
strong,
Took care of the bruises received at
play,
Heard him plan and at my knees his
prayers,
Nor thought that war would take him
away.

Must we cherish and love and rear our
sons,
To have them robbed of life in one
short hour;
That all we hold dear must be con-
sidered cheap,
Because man in his heart lusts after
power?
