

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. LETTER OF TRANSMITTAL.

DEPARTMENT OF COMMERCE,
BUREAU OF NAVIGATION,
Washington, D. C., October 17, 1919.

SIR: In compliance with the provisions of the act of Congress approved July 5, 1884, establishing the Bureau of Navigation, and directing the Commissioner of Navigation to "annually prepare and publish a list of vessels of the United States belonging to the commercial marine, specifying the official number, signal letters, name, rig, tonnage, home port, and place and date of building of every vessel, distinguishing in such list sailing vessels from such as may be propelled by steam, gas, or other motive power," the fifty-first annual list of such vessels is herewith submitted, it being the thirty-sixth annual list prepared by the Bureau of Navigation, and bringing the record of the merchant vessels of the United States down to June 30, 1919.

This volume contains the names of vessels, classed as follows:

- Sailing vessels. (Part I.)
- Steam vessels. (Part II.)
- Motor vessels. (Part IIa.)
- Unrigged vessels. (Part III.)
- Index to compound names. (Parts I, II, IIa, and III.)
- Loss of American vessels. (Part IV.)

Government vessels: Vessels belonging to the Navy; the Quartermaster Corps, the Engineer Corps, and the Ordnance Department, United States Army; the Coast Guard; the Public Health Service; the Bureau of Lighthouses; the Coast and Geodetic Survey; the Bureau of Fisheries; the Bureau of Navigation; the Bureau of Immigration; the Reclamation Service; and the Panama Canal. (Part V.)

The information relating to merchant vessels is arranged as follows:

- | | |
|---|---|
| 1. Official number of the vessel. | 7. Service, of steam and motor vessels. |
| 2. Signal letters. | 8. Crew, excluding master. |
| 3. Rig. | 9. Indicated horsepower. |
| 4. Name. | 10. Year of building. |
| 5. Tonnage (<i>gross and net</i>). | 11. Place of building. |
| 6. Register dimensions (<i>length, breadth, and depth</i>). | 12. Home port (<i>where permanent document issues</i>). |

Signal letters are assigned to seagoing vessels of the United States, and, upon application made through a collector of customs, they will be granted to yachts, and, in particular cases, to other vessels, if necessary. Such letters are requisite in order to afford the means of recognition by signals at sea.

A supplement to this volume, being Part VI, has been prepared, designed especially for the use of signal stations and of masters of seagoing vessels classed as follows and having distinguishing signal letters:

Seagoing vessels of the United States; yachts; vessels belonging to the Navy; the Quartermaster Corps and Engineer Corps, United States Army; the Coast Guard; the Bureau of Lighthouses; the Coast and Geodetic Survey; and the Bureau of Fisheries.

Respectfully,

EUGENE TYLER CHAMBERLAIN,
Commissioner.

To Hon. WILLIAM C. REDFIELD,
Secretary of Commerce.

STATUTORY LENGTH, BREADTH, DEPTH, AND HEIGHT OF VESSELS.

REVISED STATUTES, SECTION 4150.

The registry of every vessel shall express her length and breadth, together with her depth and the height under the third or spar deck, which shall be ascertained in the following manner: The tonnage deck, in vessels having three or more decks to the hull, shall be the second deck from below; in all other cases the upper deck of the hull is to be the tonnage deck. The length from the fore part of the outer planking on the side of the stem to the after part of the main stern-post of screw steamers and to the after part of the rudder-post of all other vessels measured on the top of the tonnage deck shall be accounted the vessel's length. The breadth of the broadest part on the outside of the vessel shall be accounted the vessel's breadth of beam. A measure from the underside of the tonnage-deck plank, amidships, to the ceiling of the hold (average thickness), shall be accounted the depth of hold. If the vessel has a third deck, then the height from the top of the tonnage-deck plank to the under side of the upper-deck plank shall be accounted as the height under the spar deck. All measurements to be taken in feet and fractions of feet; and all fractions of feet shall be expressed in decimals.
