WAR FLEET NOW ON WAY TO MEXICO TO FORCE SALUTE

of the ships of the United States in the harbor of Yern Crus, who had been sent ashere to the post-office for the shipe' mail and was in uniform, and who had the official mailbag on his back, res arrested and put into jail by the local authorities. He was natly released and a nominal punishment inflicted upon officer who had arrected him, but it was significant that an erderly from the fleet of the United States was picked out from the many persons constantly going ashere on various errands from the various ships in the harbor, representing several nations.

Most serious of all, the officials in charge of the telegraph Mee at Mexico City presumed to withhold an official despatch of the Government of the United States to its Embassy at Maxico City, until it should have been sent to the censor and his perminsion received to deliver it, and gave the despatch into the hands of the Charge C'Affaires of the United States only upon his personal and emphatic demand, he having, in the meantime, learned through other channels that a despatch had been sent him which he had

"It cannot but strike any one who has watched the course of events in Mexico as significant that untoward incidents such as these have not occurred in any case where representatives of other governments were concerned, but only in dealings with representatives of the United States, and there has been no occasion for other governments to call attention to such matters or to ask for apologies.

UNITED STATES SINGLED OUT FOR INSULT.

"These repeated offenses against the rights and dignity of the United States, offenses not duplicated with regard to the representatives of other governments, have necessarily made the impression that the Government of the United States was singled out for manifestations of illwill and contempt.

"The authorities of the State Department feel confident that when the seriousness and the cumulative effect of these incidents is made evident to the Government of Mexico, that Government will see the propriety and the necessity of giving such evidences of its desire to repudiate and correct these things as will be not only satisfactory to the Government of the United States, but also an evidence to the rest of the world as an entire change of attitude.

"There can be no loss to the dignity of the de facto Government in Mexico in recognizing in the fullest degree the claims of a great sovereign government to its respect."

While the fighting ships were turning their prows toward Tampico, Senators and Representatives were summoned to the White House to be informed of all phases of the situation, that Congress might be prepared for any further steps.

Acting Chairman Shively of the Senate Foreign Relations Com-mittee, Senator Lodge, the ranking Republican of that committee; Chairman Flood of the House Foreign Affairs Committee and Representative Cooper, the ranking Republican of that committee, had an hour's conference with the President.

WILSON TO GET AUTHORITY OF CONGRESS. All four men who saw the President said no steps would be taken of a

nature, such as the landing of marines or the shelling of a town acrisation from Congress.

"Marines have been landed before," said Chairman Flood, "without rhation and towns have been shelled, but inasmuch as Congress is in it would be more regular to get authorisation from Congress. The nt gave us the history of the Tampico incident and explained just what had been done, but future developments depend entirely on the attiide Huerte takes. Congress, I am sure, will stand by the President."

mator Lodge said he was in accord with what the President had done ressed the view that the demand for the salute and the despatch of the fact was in accord with precedent. He said he supported the Presion and hoped that serious steps might not be necessary.

WILSON REFERS TO PRECEDENTS.

President Wilson refers to the "Greytown case" as a precedent for the demand for reparation made by Rear-Admiral Mayo.

In that demand for reparation for injury inflicted upon the property of an American corporation near Greytown, Nicaragua, and an insult to American Minister Boriand because he had assisted an American ship captain in To take the piaces of those jackless who fail to get back before sailing arrest, Secretary Dobbin in June, 1853, sent the U.S. S. The practical effect of these measures

Following their defeat after a carage six-days' battle, the Federals are retreating precipitately toward the east to-day, hoping to reach Monterey or Saitillo, where a final stand can be made. Villa's rebel cavelrymen are allowing them no rest, however, and are pursuing and harassing them in every way possible Backing up the horsemen are severs columns of infantry, Villa hoping to surround the fleeing soldiers and wipe
