COURTSHIP PLAN COMMAND WARSHIPS ON DAYLIGHT PLAN DEEMED FUTILE

Col. Kroll, Official D. C Cupid, Sees No Merit in Compulsory Wooing.

Compulsory courtship for young people planning marriage would not be popular in this city.

Col. William A. Kroll, the official "Cupid," who has aided more than 50,000 couples to embark on the sea of marriage and the sea of marriage.

the sea of matrimony, expressed this opinion last night in com-menting on the statement of Judge Hugo Oswald, of Spokane, Wash. who believes that in order to keep down the divorce evil. all young people should come into court and declare their intentions and then be put on six months' probation

before going to the altar.

Col. Kroll believes that most young men court the girls they marry for at least six months. anyhow, and have ample oppor-tunity to find out serious defects in each other. If one of the other goes wrong after marriage. Col. Kroil declared, it is because the moral obligation imposed upon each at the time of marriage was

not lived up to.

It wouldn't be lived up to any
more after six months of compuisory courtship, he believes, than it
would have been if they had married after a courtship in the ordinary way.

Kroll believes in neither trial marriages or trial courtship. Courtship is itself a trial, he thinks, and therefore why try something twice when it isn't nec-

Six Months Often Too Long.

People know, Col. Kroll stated, after an ordinary courtship if they really love each other. A compulsory courtship wouldn't shed any more light on this subject. If both parties take seriously the obligation imposed on them by marriage, Col. Kroll believes, it matters not how long or how short the courtship has been on them by matrices, it matters not how long or how short the courtship has been. Honor is the chief asset, Col. Kroll stated. Besides, he stated, a long courtship—even six months—is entirely too long for two people after they have found out that they love each ave found out that they love each
