WILSON GETS NEWS OF VICTORY IN HOUSE.

Flushed with victory, Administration supporters predicted passage of the repeal bill by a heavy majority. They declared many of those who had woted against the previous question would be willing to vote for the bill tiself.

News of the wote was hurried to the White House, where President. Wilson learned of it just before leaving his deak to attend an entertainment for a charity at Furt Myer, across the Potomac.

With the first obstacles out of the way, the House settled down to consideration of the repeal bill. Democrats in its favor were allotted ten bours: Democrats against it, five; Republicans, four, and Progressives, one. Representative Sims counled his argument for the repeal with a denunciation of the Democrats who had aligned themselves with the opposition, and declared that if he believed, as it has been charged, that the President in the sentiment of Europe is against the British government taking us without gramting representation in the Parliament? Did Europe sympathize with us when we protested against the British government taking us without gramting representation in the Parliament? Did Europe sympathize with us when we protested against the unlawful second decade of the last century?
