## GERMANY WOULD FORCE AN ISSUE WITH RUMANIA

**Stops Transportation of Food-stuffs and Mail Over Connecting Railroads**

[Associated Press by Federal Wireless] LONDON, Eng., Oct. 15.—Germany has suspended postal service with Rumania, and is holding up foodstuffs consigned to Rumania over German railroads.

Berlin explains suspension of the postal service and food shipments as due to the uncertain position of Rumania.

The Times is authority for the report that martial law has been proclaimed in Grecian Macedonia. A despatch to that paper from Saloniki says reports persist that the Bulgarians are concentrating on the Grecian frontier and it is hinted that martial law was proclaimed in view of the concentration and may forecast the active entrance of Greece into the war.

The Berne correspondent of the Post has sent a despatch saying that according to advices from Berlin, it is openly asserted in the German capital that a secret treaty exists between Greece, Germany and Bulgaria.

A Reuters despatch from Sofia says: "A royal manifesto issued here calls on the Bulgarian army to defend the national soil, which has been violated by a perfidious neighbor."

## IN WAR ARENA

### CRUISERS BATTLE IN GULF OF FINLAND

STOCKHOLM, Sweden, Oct. 15.—There has been a naval battle between the Russians and Germans in the Gulf of Finland, and the Russian cruisers were badly damaged, according to a despatch from a correspondent of the Stockholm Aftonbladet, who fails to state whether the cruisers were German or Russian. Coincidentally it is reported that a Zepplin raid has been carried out on the Finnish coast.

### PRINCE JOACHIM'S ENGAGEMENT ANNOUNCED

AMSTERDAM, Netherlands, Oct. 15.—Prince Joachim of Germany, the Kaiser's youngest son, is engaged to be married. The Berlin Reichsanzeiger yesterday announced the engagement of the 25-year-old prince to Princess Marie Augustine, the 17-year-old daughter of Prince Edward of the duchy of Anhalt. Recently it was reported that the Kaiser had been besieged with offers for the hand of the prince.

### TEUTONS PLAN RELIEF FOR SUFFERING BELGIANS

THE HAGUE, Oct. 15.—Plans for the provisioning of 2,000,000 Belgians in east and west Flanders have been announced by the chief of the German army staff in Belgium. The Imperial government will cooperate in the relief work with Chairman Hoover, Oscar Crosby and Julius Van Hee of the American Relief Association.

### BRITISH SUBMARINES SINK MANY GERMANY CARRIERS

LONDON, Eng., Oct. 15.—According to an Exchange Telegraph despatch from Stockholm, no fewer than 17 German ore steamers in the Baltic trade are now posted as missing and their disappearance credited to the activities of the British submarines. No word as to the fate of their crews is available and it is not known whether they have been taken prisoners and conveyed to some Russian detention port, or whether they have been sunk with their ships.

Despatches from Marseilles announce the arrival there of the survivors of the crew of the French steamers Yunnan, Provincia and Sainte Marguerite, which were submerged in the Aegean last week by German or Austrian submarines. The captains of each steamer claims that no warning was given prior to the attack. The survivors were brought to Marseilles on the French steamer Moscov.

On the Yunnan, which was towed into a Greek port after being struck, eight of the crew were killed by the explosion of the torpedo and five others were wounded. The Provincia and the Sainte Marguerite were sunk.

### JAPAN'S MUNITION PLANTS RUNNING FULL BLAST

NEW YORK, N. Y., Oct. 15.—Japanese ammunition plants are running at the maximum of their capacity and the bulk of their output is being sold to Russia at cost, according to K. Okazaki, a member of the Japanese parliament who arrived here yesterday from Liverpool.

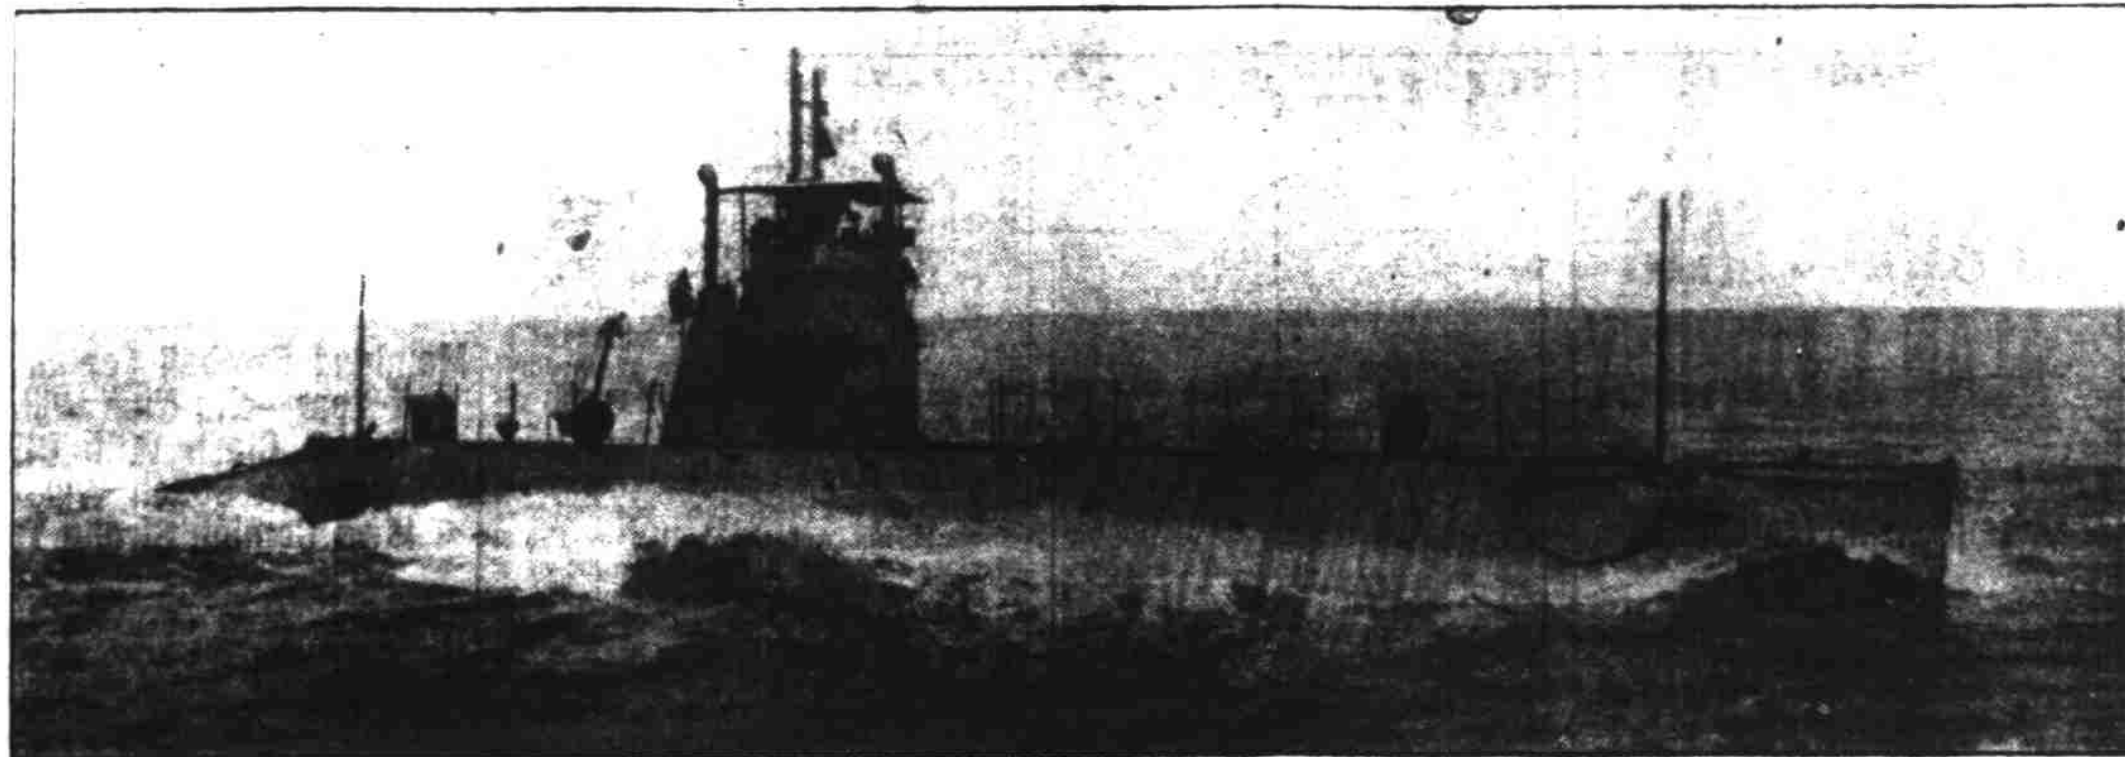

Mr. Okazaki also declared that 1,000,000 Russians left the Manchurian border at the beginning of the war to take the field against the Germans.

### ALLIES BEGIN ANOTHER STRONG DRIVE IN WEST

LONDON, Eng., Oct. 15.—Along a 25-mile front in Flanders and northern France, from Hoge north of Arras, to Loos, near Lens, the British are engaged in one of the most extensive offensives yet undertaken, while on the Gallipoli peninsula the Allies are attempting to advance along their whole front.

With the British and attacks, the channel monitor fleet is again active.

## One Mashed Finger Only Accident of Submarine Voyage

K submarine ploughing through the open sea, showing deck structure of K class boats.

By LESTER B. KARELLE.

Yeoman, 1st Class, U. S. S. Maryland. After being led by the Maryland across the Pacific the third submarine division of the Pacific fleet came into the harbor yesterday afternoon at 2:38 o'clock, and with them came the record of a submarine making a trans-oceanic trip of 2100 miles without a breakdown. The U. S. S. K-7, flagship of the division, commanded by Lieut. Joseph V. Ogan, made the entire trip from San Francisco Bay to Honolulu harbor without once stopping her engines.

Together with the U. S. S. K-7 came the U. S. S. K-1, Lieut. James P. Olding commanding; U. S. S. K-8, Lieut. John W. Lewis commanding, and the U. S. S. K-3, Lieut. (j. g.) Francis T. Chew commanding. The submarines were conveyed by the U. S. S. Maryland, the navy tug Iroquois and the collier Nanshan.

The squadron left San Francisco at about 9 a. m., Sunday, October 3, and averaged about seven and a half knots for the trip. The vessels formed in an inverted "V" formation, with the Maryland at the apex of the "V" and the submarines and auxiliaries in the arms.

Minor Trouble on K-4. On Monday, the fourth, the K-4 reported some minor trouble, and was taken in tow by the Iroquois, but cast loose the next day, having made necessary repairs. On the fifth, chief machinist's mate Bratton of the K-3 was taken off the submarine and brought aboard the Maryland, having smashed his finger in the machinery of the undersea fighter.

Later in the day, the K-8's starboard motor burned out, but after a little while the trouble was repaired and she continued under her own power. On the seventh, Lieut. Lewis, commanding officer of the K-8, was taken from that boat and brought on board the Maryland, suffering from neuritis. Commander Frederick N. Freeman, commander of the torpedo flotilla, Pacific fleet, who was on the K-7, shifted to the K-8. During the night of the same day the K-8 had some minor troubles, and it was necessary to take her in tow.

From then until the eleventh the trip was uneventful, but on the eleventh the K-4, which had been taken in tow again, cast loose and proceeded under her own power. On the twelfth, Lieut. Lewis, being once more physically fit, was transferred back to the K-8, and Commander Freeman came on board the Maryland, where he finished the trip. During the stop to place Lieut. Lewis aboard, provisions were sent to the tug Iroquois. From then until the boats arrived in the harbor the trip was uneventful.

Target Practice Drills.

During the run over, targets were rigged on the Nanshan and Iroquois, and the crew of the Maryland were busily engaged in preparing for the coming target practice, the gun crews being employed in sighting and aiming drills and the searchlight crews hard at work on the searchlights.

The Maryland has on board 137 apprentice seamen, who were placed on board at San Francisco from the Naval Training Station and are making a training cruise. These men have received special drills, and every afternoon school was held for their instruction. On the twelfth, Ensign I. M. Graham, well known to many Honoluluans, delivered a lecture to them on the "Hawall Islands," which was a very interesting and instructive discourse.

As soon as the Maryland docked yesterday afternoon, she prepared to take on 850 tons of coal, and today is busily engaged in coaling ship. Arrangements are being made for a trip to Hilo, and a large party from the ship will make the trip to the volcano.

Upon her return to the states the Maryland will stop at the training station and discharge the apprentice seamen, and then proceed to San Pedro for torpedo practice, after which she will go to San Diego, and make active preparations for target practice, which will be held a short while after that.

Praise From Admirals.

Judging from the results of her small arms target practice, the Maryland will undoubtedly make a very creditable showing at elementary target practice. Her excellent work on the small arms target range brought about a commendatory radiogram from Admiral C. C. Smith, commanding the Pacific fleet, and from Admiral C. C. Smith, commanding the Pacific fleet, and from Admiral C. C. Smith, commanding the Pacific fleet.

Along the French front there is also a series of great battles under way, the offensive in the Champagne being vigorous.

## CARRANZA'S MEN VICTORIOUS IN GUAYMAS FIGHT

**Villistas Routed Out of Stronghold; Enpalme is Also Occupied**

[Associated Press by Federal Wireless] WASHINGTON, D. C., Oct. 15.—Ensenada is the only port now held by Gen. Villa. Ensenada is on the western coast of Lower California. Despatches received here last night said the forces of Carranzistas which attacked Guaymas were successful, routing the Villa garrison and occupying the town. At the same time Enpalme, a town a short distance east of Guaymas, was occupied. The occupation took place Wednesday.

## RID STOMACH OF GASES, SOURNESS, AND INDIGESTION

**"Pape's Diapepsin" Ends All Stomach Distress in Five Minutes**

You don't want a slow remedy when your stomach is bad—or an uncertain one—or a harmful one—your stomach is too valuable; you mustn't injure it with drastic drugs.

Pape's Diapepsin is noted for its speed in giving relief; its harmlessness; its certain unailing action in regulating sick, sour, gassy stomachs. Its millions of cures in indigestion, dyspepsia, gastritis and other stomach trouble has made it famous the world over.

Keep this perfect stomach doctor in your home—keep it handy—get a large fifty-cent case from any drug store and then if anyone should eat something which doesn't agree with them; if what they eat lays like lead, ferments and sours and forms gas; causes headache, dizziness and nausea; eructations of acid and undigested food—remember as soon as Pape's Diapepsin comes in contact with the stomach all such distress vanishes. Its promptness, certainty and ease in overcoming the worst stomach disorders is a revelation to those who try it—Adv.

Ankervyke, the historic mansion at Trarbach, England, in whose grounds King Henry VIII. wooed Anna Boylen, was destroyed by fire. The owners were absent and the cause of the fire has not been ascertained.

Ensign Winslow, the commander-in-chief of the Pacific fleet, which Capt. Kittelle read to the crew assembled at.

Since the Maryland's last visit, Capt. Kittelle has successfully passed his examination for promotion to the grade of captain, and all his friends will be glad to see him in his new uniform.

There have been practically no changes among the officers of the Maryland, with the exception of the addition of 2nd Lieut. Gardner, U. S. Marine Corps, second in command to Capt. C. T. Westcott, commanding the marine detachment.

The following officers of the submarine flotilla came over with the K group of submarines: Cmdr. Frederic N. Freeman, commanding Pacific torpedo flotilla.

U. S. S. K-7, Lieut. J. P. Olding, commanding; Ensign E. I. O'Keefe, assistant to commanding officer.

U. S. S. K-8, Lieut. J. W. Lewis, commanding; Ensign C. B. Byrne, assistant to commanding officer.

U. S. S. K-3, Lieut. (j. g.) E. T. Chew, commanding; Lieut. (j. g.) N. L. King, assistant to commanding officer.

The K-7 has a complement of 28 men, the K-1 23, the K-8 25, and the K-3 24, in addition to the above officers.

## GOING OUT IN AUTOS TO GET 100 NEW MEMBERS IN 100 MINUTES

The largest group of members to be admitted in one month since 1913 were taken into the Y. M. C. A. Wednesday evening when the membership committee voted favorably on 152 applications. The report for September was read by Ed Towse, chairman of the committee, and the total number of members showed 1579, which is the largest total yet reached by the association.

The committee was very much pleased with the advertising campaign in the first month of the year, which was instrumental in securing such a large number of members. Plans have been arranged for the big membership campaign in January, which will be unique. The proposal made was to secure 100 members in 100 minutes, which is a new idea in Y. M. C. A. membership campaign. Heretofore there have been weekly contests but never a contest that lasted but one hour and 40 minutes.

The Honolulu Auto Club will give its services in this campaign and each team will be named after some automobile.

## CHINA'S HIGHEST NEW TITLE TO LAPSE WITH FIFTH GENERATION

(By Associated Press.)

PEKING, China.—Is the plan of President Yuan Shih-kai to confer titles of nobility upon government officials another step toward a monarchy?

This is the question which is asked very generally throughout China, especially in the liberal press.

The thinking public and the foreign press are having some difficulty in reconciling the title idea with a republic, but the criticism is of a kindly, in fact of a rather popular character.

Retrospective titles are the sort which will be conferred if the new plan is carried out. It has the approval of the cabinet. The senate is still to act on the measure, but, like most other measures favored by the president and his official family, the scheme for conferring titles will doubtless pass without opposition.

The six titles which President Yuan Shih-kai's government will probably confer upon meritorious members of the government are: Prince, duke, marquis, earl, viscount and baron. These titles are all considered to be of equal rank with the exception that the baronetcy will cease with the life of the man upon whom the title is conferred, while the heir of a viscount will be permitted to become a baron. The heir of a prince will become a duke. His heir in turn will become a marquis and so on through the list of the baronetcy, each generation inheriting a less enduring title. The prince's family will have a title for five succeeding generations, while the dukedom will confer distinction upon only four subsequent generations, and so on through the list.

announced the promotion of P. W. T. Bluet to be a major, with assignment to the 2nd Regiment.

Ranking from October 11, 1st Lieut. Harry H. Morehead has been appointed a major, and assigned to the 2nd Regiment.

## GERMAN CHURCH MAKING WAR ON FOREIGN WORDS

BERLIN, Germany.—The war upon foreign words has now been taken up by the church, the terminology of which is chiefly of Greek or Latin origin. Although such words as "synod," "konsistorium" (consistory), and many others are almost as old as the German Protestant Church itself, a movement has now been started to get rid of them root and branch, and to invent German equivalents.

A petition to this effect has just been adopted by the synod of Posenburg and sent to the Royal Konsistorium of the state church. The synod also asks that steps be taken to rid the church of foreign words in public worship and parish activity from English influences, in order that, in keeping with our German character, a pure evangelical Christianity of a native type may be encouraged and that it should be an honor for all to the church for what is foreign in church matters.

Take the children to see and hear Miss Arleigh play on her big golden harp tonight at Charles R. Bishop hall, Punahou.—Adv.

Greece's mobilization has called 400,000 men to the colors.

## FRISCO BANKER HEADS ORIENTAL SHIPPING LINE

**New China Mail Steamship Company Starts Business October 23**

[Associated Press by Federal Wireless] (Special Cable to the Liberty News) SAN FRANCISCO, Cal., Oct. 14.—Look Yen Hung, president of the San Francisco branch of the Canton Bank, has been elected president of the new China Mail Steamship Company, the main office of which will be in the bank's establishment in San Francisco. The capital of the company in American money is \$2,100,000, divided into 100,000 shares of \$21 each. The steamer China, now operated by the new company, will leave San Francisco October 23, and will call at Honolulu en route to Shanghai and Hongkong.

## MANY FATALITIES FROM QUAKES IN SAN SALVADOR

Associated Press by Federal Wireless. NEW ORLEANS, La., Oct. 15.—More than 200 persons have been killed in San Salvador in the last seven weeks by earthquakes, according to news received here yesterday by former residents of that country.

## CHILDREN HATE PILLS, CALOMEL AND CASTOR OIL

**If Cross, Feverish, Constipated, Give "California Syrup of Figs"**

Look back at your childhood days. Remember the "dose" mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well-founded. Their tender little "insides" are injured by them.

If your child's stomach, liver and bowels need cleansing, give only delicious "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this harmless "fruit laxative" handy; they know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach, and that a teaspoonful given today saves a sick child tomorrow.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly on each bottle. Beware of counterfeits sold here. See that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.—Adv.

## BELGIAN TRAITOR EXILED FOR LIFE TO FORT PRISON

BOULOGNE-SUR-MER, France.—Pierre Thelsen, a Belgian newspaper man from Brussels, accused of having furnished the German general staff with information of extreme importance and which was detrimental to the allies, was condemned by court martial to perpetual deportation to a fortified place. Thelsen was arrested in 1911 and sentenced to five years' imprisonment, after which he resumed relations with the German army. He was arrested a second time on Aug. 5, 1914, at Brussels, and turned over to the French authorities. He made a confession, but protested that as his offense was not committed in French territory, the French had no right to judge the case.

The increase in American tonnage during the year has been 524,445 gross tons, or about four times our average annual increase for the 10 years up to June, 1914, and larger than the annual increase of tonnage under the British flag (including the dominions and colonies) for the 10 years up to June, 1914, which was 463,000 tons.

Gen. Friedrich A. J. von Bernhardi, the military writer was assigned to a field command in the German army, at his own request.

There Is No Question but that indigestion and the distressed feeling which always goes with it can be promptly relieved by taking a **Rexall Dyspepsia Tablet** before and after each meal. 25c a box. Benson, Smith & Co., Ltd.

## MAY NOT SPLIT UP CONTRACTS ON MANOA JOB

**Supervisors Think Big Saving Can Be Made By Giving All of Work to One Man**

"Mr. Mayor," said William Larsen last night just as the meeting was being adjourned till Tuesday, "the new rules say that in answering 'aye' or 'no' the speaker should use a loud clear voice. I wish to remind you that neither Mr. Hollinger nor Mr. Horner use that kind."

Horner, where he sat at some distance from the complaining Larsen, squirmed bashfully, and started to say something, but he was stopped by the city executive.

"The point is well taken," said Mayor Lane, "the two members will hereafter heed the warning." He started through the hazy atmosphere at Hollinger, who slouched down in his chair and sulked frowningly. On the face of Larsen who sat near to Hollinger, however, a wicked school boy gleam of joy appeared.

This little bit of excitement closed the session, and thumping his large hand upon the table, the mayor declared the meeting adjourned. It had not been a long meeting, but it had served the purpose that Mr. Shingle, chairman of the road committee, had sought of it. It had given a chance for discussion concerning the awarding of contracts on the Manoa improvement project. The question was, whether they should be let out on several contracts, or whether one contract for all would suffice. The supervisors varied in their views.

Shingle for One Contract. "Personally," said Mr. Shingle at the close of the discussion, "I favor one contract, but I suggest that no definite action in regard to either way be taken up tonight."

Several others, citizens and supervisors, agreed with Mr. Shingle's idea, on the ground that one contract would make a material saving to property owners. Based on an estimate of \$300,000 for the job, it was believed that the one contract plan would save the city at least \$15,000.

Mr. Arnold rose and suggested that bids be called for on the work as a whole, and also on different parts of work, it being decided which plan to pursue after a careful study of the two.

"No," said Mr. Larsen, "I believe that several contracts may cause one man to interfere with another. Contractors," he said, slipping back into the slang phrases which he loves so well, "contractors will slip something on you if they can. The only way to keep them in line is to get an inspector who is smarter than they are."

Smiling broadly at the keen wit of their fellow, the other "wise men" voted to postpone decision on the subject.
