

VINCESS - ARNOTT : HEMLICH

The contest to name the Ship's news paper ended successfully Friday with the choice of — well, a look at the top of this page will tell you more.

From among the 54 names submitted the comittee of Captain Harris, Lt. Huber, and Lt.Cmdr. Ivison was hard pressed to select the winner. Being faced with just the suggested names and not the names of the men submitting entries, the committee passed impartial judgment. The verdict was unanimous when finally reached.

Bob Heimlich, Y2c, that stalwart steno from Ship's Office, and Frank Arnott, Sic, who is just as salty as his Dad was before him, both submitted the winning name; and they were declared joint winners. To each, therefore, goes \$5.00 and the congratulations of their shipmates.

The judges later told your reporter that they had one h... of a time making up their minds as to which entry had the

greatest merit.

Our thanks to the officers, who constituted the selection committee, for graciously acting as judges; and our thanks to all hands who submitted entries. The spirit shown by this contest heartens the staff of this paper. We pledge our best efforts in the future to give you guys a good newspaper:

The "3" is soon to lose the services aboard of one of its most competent and well like officers. Lt.Comdr. Ivison takes uphis new abode on the USS FABIUS, pursuant to orders, when the two ships are docked. We extend a farewell with a sence that we are losing one who has been a shipmate and a friend. We hope you won't fail to come aboard at times other than when duty dictates.

* * * * *

All hands wish to welcome aboard Ensign Louis J. Hemmelgarn, from St. Henry, Ohio. At the present time he is assigned temporary duty as Assistant to the First Lieutenant.

The two most discussed topics of conversation abound ship today are: "when will I get out?" and "when is the AVENTINUS going back to the States." There has been much scuttlebutt on both questions, and it is most interesting to me to hear some of the statements I have allegedly made. Perhaps I should put down on paper, therefore, what information is available at the present writ-

ing.

The answer to the first question is now quite obvious - at least for the men who have or will have sufficient points for discharge between now and 1 February 1946. Immediately after the first Demobilization Plan was announced by the Navy, we adopted on this ship a policy of full cocperation with the plan; that is, sending the men home just as quickly as possible when they had sufficient points regardless of how badly they might be needed on board. This policy we intend continuing and on November 1st, seventeen men will be eligible for discharge; nine more are due to follow during the month of November.

The only exception I can foresee at the present time, which might cause a deviation from the policy, is in case a man is essential to the operation of the the ship and a replacement cannot be secured on board or from the shore station. I know of no such cases arising between now and December 1st.

The answer to the second question is difficult and the outlook changes every few days. One thing is certain, however. Demobilization cannot proceed at the Navy's desired rate with ships of this type being kept overseas. Therefore, it seems logical to assume, considering the work at present mapped out for us to do here, that the ship will be ordered back to the States in the not too distant future.

J. F. HUBER, Lieut., USING Executive Officer.

* * ON THE RECORD * *

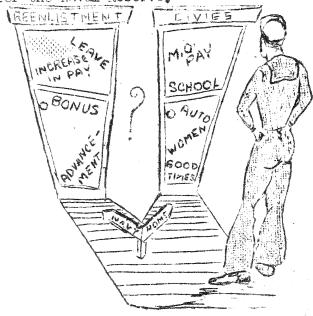

With the war over, the future has suddenly become the present, and civilian life is once more becoming a reality. Some have families, others positions in life, a job to go back to, a trade they can rely upon; whil others of us were fresh from high schools and colleges without a job to our credit and none to return to. For those, the wars end poses big problems. For the younger ones college is the answer, but for the majority it is to take the adventures of the challenging land and take 'come what may'.

In a fast diminishing Navy that is now running competition with the Civilian Army, many opportunities are now opening to enlist or reenlist in the Regular Navy. All rates are not open for the Reservist but the majority are. Regular Navy Allowances and lower physical requirements are featured.

The latest facts on enlistment and reenlitments are: 1) Enlistments may be made now or up to 90 days after discharge in the permanent rating and still retain allowances. 2) A 30 day leave will be granted to those who enlist or reenlist within 30 days after discharge. 3) Enlistments or reenlistments will be made in the permanent rating held at the time of discharge and temporary rating will be restored immediately. 4) Enlistments and reenlistments are for a period of two, three, four or six years at the option of the person.

The biggest gripe about not "shipping over" at the present time seems to be the loss of Mustering Out Pay. So far no arrangements have been made to receive Mustering Out Pay for those who "Ship over" without going through a Personnel Seperation Center.

For those who are returning to "civies" there is a chance for them to keep their ties with the Navy by recollisting in the Reserves on inactive duty. Sounds good! A paid vacation every year and a weekly howl with the boys. You have the opportunity up to 90 days after discharge to reenlist at your permanent rating with your temporary rating restored immediately. There are no recollistment allowances for the Naval Reserve.

* * AVENTINUS SPOTLIGHT * *

A new driver, with whip in hand, has taken over the Deck Force to carry on where Parks left off. A no more "saltier" tar could have been chosen that Roscoe "Salty" Saltzman, Boatswin Mate Second Class, U.S. Navy.

Born and raised in Greeley, Kansas, Roscoe turned in his plow in 1940 to make the Navy his career. He left no matrimonial ties behind and set out to see the world. One of the favorite sea stories he likes to recall is the many gun watches that he stood in the icy waters of Kiska on an unweatherproof converted tug with one set of rain gear that was exchanged upon relieving the watch. This is about the only sea story that he reveals, but his action is much greater. After his tour of the North Pacific he was transferred from the USS GOSHAWK to the illfated USS LISCOME BAY. A Purple Heart was his reward and a trip back to the Naval Hospital at Norman, Oklahoma. A few months later he was again in the heart of the Pacific on an LST with more action to his credit.

With his quiet, easy going ways, Saltzman has won the respect of the Deck Force as well as the rest of the crew. He keeps pretty well to himself but can be tempted out of his sack an time with the roling of those bones or the skuffling of cards.

NAVY DAY CELEBRATION

Saturday, the U.S. received its first birds!-eye view of the power which enabled our Navy to everwhelm the Jap fleet and its air arm. From Maine to Calif. the battlewagens and flat-tops (flat-bottoms are at Okinawa) were open to public boarding parties.

Among the many famous ships on parade at parts around the nation were the "Fighting Lady"; the battlewagons, So. Dakota, Adm. Halsey's flagship and the Iowa; the carriers Wasp and Langley, and the submarine "Whale" with its famed record of 114,000 tons Jap shipping sunk and 96,000 tons highly probable.

Citizens back home, swarming aboard the mighty ships, were treated to a demonstration of Radar and Fire Control Equipment, secrets which the Navy heretofore had not disclosed.

MEW YORK - "Logs" Dictrich, screen actress back from an eleven menth U.S.O. tour in Europe said she couldn't repeat what the G.I.'s said when she arrived wearing a long evening dress.

The Russian boys recognized me too she added but I can't repeat what they said either.

Sentinel Radio Corp. announces that a new pocket radio slightly larger than a cigarette case will appear on the market next month. The aerial will consist of a small wire running from the case to the wearers; ear.

AROUND THE SCUTTLEBUTT:

Now that LUDWIG and STANSHESKI are leaving MARSHALL will inherit the sole responsibility of the "photo lab". In the few weeks that he has applied himself to this art, he has done exceedingly well-the development of right to left hand salutes are his specialties!.... Just recently the CHIEFS, all three-came crashing out of their quarters simultaneously- the curiousity was just too much for KREJCI---so he investigated -- seems the chiefs were listening to an Armed Forces Murder mystery and the weird feeling of loneliness was just too much for their nerves! Now, the Chiefs, are threatening to post a "beds to let" sign. Whatnext??....It is very apparent that we have received a new supply of paint aboard-just a glance about the ship is sufficient, but should you not be too observant -- cast a glance at PETERSEN -- who believes working can be camouflaged GREENS! -- were accepted by all hands aboard last Friday with the customary G.I. complaints -- either too long or too short, but that's not badthink of acquiring a set by rambling thru the typhoon swept army tents at Okinawadefinitely a scavenging proposition—ask GARMEY!!....The newly installed squawk boxes have not only been instrumental in adding to the crews enjoyment, but it has also brought a peculiar air of politeness from "little ROBERTS"--"What's your game Robie-?? -- don't tell me that the music has really provided too much competition for your tonsils?.....The "Hi Neighbor" proram is as much a fixture of the after compartment as the matching of trays-this combination has offered many amusing incidents---in one instance BACKSTROM broke out in a WALTZ---glided directly into PO-MAR, who with his stack of trays was immediately sent into a "WHIRLING DERVISH" while the SCULLERY BOYS scolded BACKSTROM with-"I HATE YOU CAUSE YOUR FEETS TO BIG" The baseball tourney made a marked debut last Wednesday -- the contests were bitterly fought and team spirits ran high-as an example of the rivalry, MR. HOVE's distress drove him to what had all the ear marks of the final plunge-Now AIRDALES don't play so rough with your shipmates -they'r nice little fellows!!! Knowing they are the only group aboard that have musical ability --- if it can be called ability---the ship's band has become very temperamental-the drummer wants coaxing, the sax player wants to be featured, the leader wants sack time-we certainly would enjoy a bit of ragtime, Mr. Niewald — Give out and we'll give in-What say?? MISCELLANEOUS: - Book of the week--"SUDS IN YOUR EYE -- by Mary Lasswell -- a tale of three old maids in San Diego--you'll love it....Listen to "UMBRIAGO" or "Candy is dandy but liquor is quicker"!!!!..... Parting Scuttler,.... There's carburetors in them than hills!!!!!

The Chicago Blackhawks beat the Boston Bruins 5 to 4 to open the National Hockey League Friday Night, Sunday night the Montreal Canadiens beat the Blackhawks 8-4, and the Toronto Maple Leaf's tied the bruins,

LOGGIN: STORES Cont.

In San Francisco last week, Nat Bowldin of Chicago, staged a last minute come V-1 back to win an exceedingly unpopular ten round decision over Bobby Zandy of Los Angeles.

In Newark, Freddy Archie won ten round verdict over "Baby" Al Brówn of Panama, very easily.

In Washington, Friday night, Sammy Angot the former lightweight champ came up off the floor twice to gain an unpopular decision over welterweight contender Danny Kapelo, of Brooklyn...Just call him "Canvas Back Angot."

Promoter Mike Jacobs is offering Bruce Woodstock, the British Empire Heavy-Weigh Champion; a fight with Light Heavy-Weight Champion, Gus Lesnovich, in December or January.

Jack Dempsey says that Joe Louis Will lose the forecoming fight with Billy Conn because of a bad combination, old age and long separation from the ring.

Gene Tunney says Billy Conn has been a play boy for the last five years and is in no condition to fight. He is willing to bet that right now welterweight Ray "Sugar" Robinson can whip the sox off Conn.

BASEBALL

George McQuinn, St. Louis Browns first baseman was traded to the Philadelphia Athletics for Dick Siebert. There was no money involved in the deal.

It is said that Lon Warneke, former Cub pitcher, wants to be an umpire in the Pacific Coast Loague.

Yankee Stadium will soon be equipped with lights, leaving the Chicago Cubs the only team in the majors who can't play at night on their home grounds.

Charlie Root, one of baseballs former greats, has been recalled by the St. Loui Cardinals from the Columbus A.A. Cub fan will always remember Charlie Root.

This winter will no doubt see the greatest boom in baseball history as far as selling and trading is concerned. The shifting of players, and the returning service men makes it almost impossible to pick next seasons top teams.

SHIPS SPORTS

SOFTBALL

The U.S.S. AVENTINUS now has a ship!s softbill league that may some day offer more than passive resistance to the big time. The tournament started off with a bang last Wednesday when V-1 clashed with holiday routine will see V-1 engage SEN the Deck Force. V-2 beat SEN in the other and V-2 will oppose the Deck Force. "WHAT WE DO"

We stand in line to get our clothes,
We stand in line to get our mail,
Hey, mates, get off my feet;
We stand in line to go ashore,
We stand in line to wash,
We stand in line to find a place
to stand in line to find a place
to stand in line to draw our pay,
We stand in line to spend it.
But darn it mates we never,
have to stand in line to lend it.
