## FORREST OREN REDNOUR, SHIP'S COOK SECOND CLASS, USCG

FORREST OREN REDNOUR was born in Cutler, Illinois on May 13 . 1923. He was killed in action June 13, 1943.

REDNOUR enlisted in the United 能ites Const Guard at Chicago, Dlinois on June 19,1941 and served continuously until the time of his death. He was posthumously awarded the Purple Heart and the Navy and Marine Corps Medal for serviees as set forth in the following citation:
"For heroie conduct while serving aboard a U. S. C. G. C. ESCANABA during the rescue of survivors from a torpedoed ship in North Atlantic waters. Despite the menace of possible enemy submarine action, REDNOUN risked his life in the black icy waters of the Atlantic to aid in the rescue of unconscious and helpless survivors. Realizing the danger of being crushed between the rafts and the ship's side or of being struck by a propeller blade if the engrines loacked, he storm in under the counter of the constantly maneuvering ESCANABA and prevented many floating survivors from being eaught in the suction of the sercws, in one instance retrieving a louded raft. REDNOUR'S gallant and voluntary action in subjecting himself to pounding seas and bitter cold for nearly four hours contributed to the rescue of 145 persons and his courageons disregard for his own personal safety in a situation of grave peril was in keeping with the highest traditions of the United States Naval Service."
